

20273000GT

RM 85 day

Why Plant This Hybrid?		
<ul style="list-style-type: none"> • 3000GT version of our 2020 • Excellent agronomics and grain quality • Very strong stalks and roots 		
Agronomics	GMO Traits	3000GT
	GDU to Blacklayer	2040
	Drought Tolerance	Fair
	Stalk Strength	Excellent
	Root Strength	Excellent
	Test Weight	Good
	Seedling Vigor	Good
	Late Season Health	Good
	Plant Height	Medium
	Ear Type	Blocky
	Seed Size	Medium-small
	Silage Potential	Fair
Response to Soil Types	High Organic	Excellent
	Heavy Clay	Excellent
	Light Sandy	Fair
	High Fertility	Excellent
	Low Fertility	Good
	Wet	Good
Management	Irrigation	Excellent
	Early Planting	Good
	Late Planting	Excellent
	Corn on Corn	Excellent
	Harvest Population	28-34,000
Disease Tolerance	Eye Spot	Excellent
	Gray Leaf Spot	Good
	Northern Corn Blight	Excellent
	Southern Leaf Blight	Good

GMO Traits	Description
None	Conventional
BT	European corn borer resistance
GT or RR	Glyphosate tolerant or Roundup Ready
VT3	Glyphosate tolerant, European corn borer & corn rootworm resistance
VT3Pro	Glyphosate tolerant, European corn borer & corn rootworm resistance, plus fall armyworm, and corn earworm control
3000GT	Glyphosate tolerant & Liberty tolerant, European corn borer & corn rootworm resistance
VIP3111	Agrisure Viptera™ combines 3000GT traits with Viptera trait that controls 14 different pests, including European corn borer, fall armyworm, Western bean cutworm, black cutworm, corn ear worm, and more.
HX	Liberty tolerant, corn borer resistance
